

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (Currently Amended): A wiring harness slack absorbing device comprising:
a case having a base wall, front wall, rear wall, pair of side walls and a cover for receiving
a wiring harness having an inlet formed in a side wall adjacent the rear wall, and an outlet formed
in the rear wall for the wiring harness, said inlet being perpendicular to the outlet;
an urging member for urging the wiring harness toward an inside of the case; and
a harness roller around which the wiring harness being is rolled, said harness roller
reciprocally moving under acting force of the urging member,
wherein a space for receiving a folded part of the wiring harness, formed by forming an
overlap and then bending the wiring harness 90 degrees, is provided between the base wall of the
case and the urging member, and
wherein the folded part of the wiring harness is led into the case through the inlet and
received in the space.

Claim 2 (Currently Amended): The wiring harness slack absorbing device as claimed in claim 1,

wherein a center axis of the urging member is displaced from a center plane of said harness roller in a direction of thickness of the device for providing a large said space for receiving the folded part of the wiring harness.
